*Memorandum No. 1155*  
MEMORANDUM FOR: [REDACTED]

25X1A9a

ATTENTION:

SUBJECT: Transmittal of 1:25,000 Maps of East Germany

1. Photographic copies of thirteen sheets of the 1:25,000 series on East Germany are forwarded herewith for your possible use. The photographs are unfortunately of very poor quality, as they were taken with a Minox camera. However, in view of the interest in targets in and around Gross-Döln, some of the sheets may be of some use. We note in a recent guide published in Germany that these targets received considerable attention and information was being plotted on old German 1:25,000 sheets. You will note that the sheets in the vicinity of the airfield of Gross-Döln are of fair quality and show installations not portrayed on the old 1:25,000 sheets. You may retain or destroy any of this material.

2. For your convenience, we are forwarding a copy of the index of the 1:25,000 sheets on East Germany that are now in the possession of the Intelligence Community. Copies of any of these sheets are available to anyone [REDACTED] that requires them. Most 25X1A6a of them should be available in USAREUR.

25X1X7 3. For your information, the recently acquired thirteen sheets 25X1X7 were made available through other channels to [REDACTED] and to USAREUR. However, as of this date USAREUR apparently has not reported them. They were acquired through Agency channels from [REDACTED] 25X1X7  
25X1X7 Authority has been received from the collector to release these sheets to [REDACTED]. Copies have been forwarded to the appropriate headquarters liaison staff for this purpose. You should not assume that the sheets have actually been delivered to [REDACTED] until you 25X1X7 have checked with [REDACTED] 25X1A6a
